

2024-2025 Annual Report

From our Executive Director

This has been the second in our most recent five-year federal funding opportunity to provide a comprehensive birth-to-five program in Yamhill County.

As a result of the staffing and enrollment challenges in the previous school year, we adjusted our service provision at the beginning of the year. These revisions provided Head Start of Yamhill County (HSYC) the opportunity to strengthen our services to better meet the needs of children, families, staff, and the community. Additionally, we were fully enrolled all year and experienced greater workforce stability.

We made the difficult decision to reduce the number of preschoolers served from 304 to 184, and apply much of the savings from the reduction to increase the duration of services for our preschoolers. As a result, 85% of 3- to 5-year-olds received 1020 hours of class time annually. Kids attended 6- to 7-hour classes for at least four days a week, with us either yearlong or for a school year that aligned with most of the Yamhill County school districts. Research shows that more time in class strengthens social-emotional development and school readiness skills, and supports parents' opportunities for school and work.

This year we also implemented Head Start Home Base; a yearlong opportunity for 10 children and their families to receive weekly, 1.5-hour family visits with a teacher who is grounded in child and parent development. The visits focus on individualizing for the child with the family to prepare them for a successful classroom experience, whether in one of our PreK classes or the K-12 system. Families also receive regularly scheduled opportunities at our centers or in the community to connect with other HSYC families. This family-centered concentration has been extremely successful.

Beginning in the fall of 2024, HSYC reduced the number of toddlers in each classroom group to 8, added an extra class, and lengthened their class time by an hour in the summer in an effort to better prepare them for the transition to PreK. It has been rewarding to see how quickly 2-year-olds develop friendships and learn to love school, and how parents realize how much their toddlers are capable of!

In January 2025, we completed a major renovation at our Newberg property to add an Early Head Start Center for toddler classes, family visits, and group family socializations. The proceeds of the 2022 sale of our Dayton Center funded this classroom and playground expansion opportunity.

It is with pride and anticipation that we present herein the accomplishments of the past year and advance with our plans for the future.

Suey Linzmeier
Executive Director

Our Mission:

We are committed to being a successful learning community, which includes: a partnership with parents and their children; a celebration of diversity; an atmosphere of support, respect, and trust; where everyone is safe and experiences a sense of belonging.

Estamos comprometidos a ser una comunidad de aprendizaje exitosa que incluye una asociación con los padres y sus niños; celebración ;a diversidad; un ambiente de apoyo, respeto, y confianza; donde cada persona se siente segura y como parte de la comunidad.

Our Vision:

Children and families from birth to five are prepared to become lifelong learners in a safe and healthy environment. Families and community are engaged to support and promote the healthy development, school readiness, and well-being of young children and families with young children.

Our Value/ Philosophy:

Head Start helps to identify opportunities for success. We provide a comprehensive and robust approach of services to best serve the most vulnerable in our community. We do this by building upon strengths and respectful relationships, and striving to instill a life-long love of learning for all.

2023-2028 5-Year Federal Grant Goals

1. HSYC implements Conscious Discipline to support the social emotional needs/ self-regulation of the HSYC community.
2. All children, regardless of family situation, will have strong attendance that will carryover after HSYC participation.
3. HSYC will be known for providing high quality, comprehensive services for school and life readiness through a unique two-generation approach.
4. HSYC hires and retains individuals committed to the HSYC mission, philosophy, and culture to ensure the highest quality of service provision. HSYC is known as a great place to work and make a difference.

HSYC Partners with Edible Landscapes of Yamhill County

During the school year, HSYC grew a partnership with Edible Landscapes of Yamhill County. We joined their Giving Gardens Community Project, funded by the Oregon Community Foundation, and worked together to plan and install garden beds and drip irrigation systems at our centers. Staff, families, children, and community volunteers planted a variety of seeds, starts, fruit trees, and shrubs, and developed a momentum to sustain the upkeep and harvesting through our first ever garden committee. This has been a tremendous gift for our families, most of whom experience food insecurity.

As we neared the end of our Newberg Early Head Start Center construction in late summer of 2025, in addition to the garden beds, Edible Landscapes helped us install a pollinator garden, apple trees, berries, currants, and a wide array of native plants to complete the landscaping.

The Edible Landscapes project is intended to inspire and educate the community about the benefits of cultivating organic edible gardens. As a result of this project, HSYC's new gardening committee will receive support from our Edible Landscapes friends as they continue to support us with innovative ideas, gardening expertise, and supplies to help our gardens and community flourish.

Our Programs

Early Head Start

Early Head Start is for children and families beginning their HSYC journey, sometimes even prenatally. Family visits focus on child development, parenting, self-sufficiency and crisis support, holistic family health & wellbeing, supporting families' chosen goals, and opportunities to gather with other families for child-centered fun and learning.

EHS Toddlers

This opportunity is a segue between the EHS and preschool classroom experiences for those ready to be a friend and venture into a classroom in small groups for short spurts. Families continue receiving child development- focused visits with the teacher, and individually-tailored supports from a Family Support to ensure success during and after their time with us.

Head Start

Our preschoolers build on the skills developed in the toddler program to bring their learning and development to the next level so that, after two years, they will be ready for kindergarten! HSYC supports our preschoolers *and their families* with the transition to kindergarten and beyond.

Program Data

Health

86% of children were up-to-date on Dental Exams

90% of children were up-to-date on Well Child Checks

15% of enrolled children experienced a diagnosed disability

Head Start of Yamhill County recognizes that children grow and develop rapidly during their early years. Identifying the need for additional supports early on helps to ensure future success in school and life.

Eligibility and Enrollment

11 Children experiencing foster care were referred to HSYC and received services

357 Children served—39% of income eligible children in the community (some children were served based on other eligibility criteria)

6 Expectant persons were served in Early Head Start

99% Average monthly enrollment as a percentage of funded enrollment

Family Engagement

319 Families served

207 Parents attended at least one parent meeting or event

*"(The staff) are very welcoming and make you feel loved and make it feel like you're a big, huge family."

Kindergarten Readiness

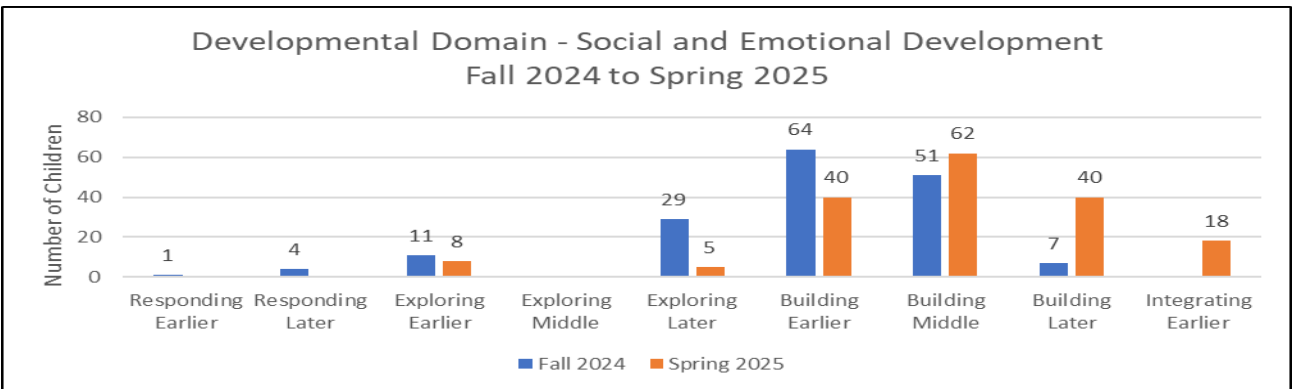

Head Start of Yamhill County has formal collaborations with all seven school districts in Yamhill County to prepare and transition children from preschool to kindergarten. Kindergarten teachers attend school readiness meetings with Head Start staff to ensure successful transitions of our children and families to the public school setting. They look forward to HSYC children joining their class and being role models of “how” to be a member of a group in a classroom setting.

The Developmental Domain charts below show the growth of preschool children between the fall of 2024 and spring of 2025.

Conscious Discipline

HSYC began implementation of Conscious Discipline in the 2022-2023 school year with a pilot group of staff, parents, and governing body members. In 2023-2024, all staff took part in 10, hour-long video training sessions and began implementation in the remaining classrooms. In 2024-2025 we began a pilot program introducing Conscious Discipline principles to our parents/ families through simple activities they could do with their children at home that would mimic the classroom experience.

Conscious Discipline is a social-emotional learning program that helps people learn to manage their emotions and behaviors. The program starts with teaching adults how to manage their own emotions and behaviors, and then teaches them how to teach children these skills. It is based on brain research and a multidisciplinary approach that considers three brain-body states that drive behavior: survival, emotional, and executive. It helps people develop self-reflection skills so they can respond to situations instead of reacting to them.

Governance

Head Start programs operate with a dual governance system. Both our Board of Directors and Policy Council consists of parents and community members who possess a passion to make a difference in the lives of children and families in Yamhill County. These groups help us to set goals and review, suggest, and approve policies related to governance, finance, staffing, and program activities.

Reviews & Findings

The Office of Head Start through the U.S. Department of Health & Human Services' Administration for Children & Families conducted a Focus Area One monitoring review in April 2025 to assess HSYC's performance and compliance with the requirements of the Head Start Program Performance Standards (HSPPS) or Public Law 110-1414, *Improving Head Start for School Readiness Act of 2007*. HSYC was found to meet the requirements of all applicable HSPPS, laws, regulations, and policy requirements. There were no findings as a result of the annual Independent Fiscal Audit. Head Start of Yamhill County remains qualified as a low-risk auditee.

Update on Facilities Projects

Head Start of Yamhill County proudly opened its Early Head Start Center in Newberg in January of 2025. Designed to provide a safe and nurturing environment, the facility features a dedicated classroom for our Toddler program and an Early Head Start family visiting and socialization space focused on hands-on learning, family engagement, and community connection. Outdoor areas, including an edible garden, further enrich the experience by promoting exploration and growth. By expanding access to early education, this center strengthens families in our county and reflects our commitment to fostering a safe, inclusive, and supportive learning community.

USDA Non-Discrimination Statement

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident. Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the State or local Agency that administers the program or contact USDA through the Telecommunications Relay Service at 711 (voice and TTY). Additionally, program information may be made available in languages other than English. To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at [How to File a Program Discrimination Complaint](#) and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Mail Stop 9410, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov. USDA is an equal opportunity provider, employer, and lender. Persons with disabilities and limited English proficiency (LEP) have the right to free language assistance and accommodations. HSYC will provide these services upon request. HSYC is an equal opportunity provider.
